CLIENT	Henry Boot Developments Limited
ARCHITECT	AJA Architects Limited
PROGRAMME	31 weeks
VALUE	£1.8m
PROJECT DETAILS	Phase 1B, Omega Boulevard, Capital Park, Doncaster

This project was for the construction of a 24,555sq ft industrial warehouse and 5,460sq ft two storey offices with welfare facilities.

Civils works comprised of creation of a car park and extensive concrete service yard. The site access road was constructed under Section 38, and had to be carefully managed and constructed to connect to the surrounding units which were being constructed by a Third Party. A mass poured internal concrete slab was installed within the building structure. Extensive drainage works were carried out and the attenuation system was value engineered to be various sizes of ACO drainage channel.

CLIENT	Synergy Health UK Limited
ARCHITECT	WCEC Architects
PROGRAMME	38 weeks
VALUE	£4.4m
PROJECT DETAILS	Bradford Industrial project

The basics of the project was the construction of specialist facilities, forming continuous flight auger piling, construction of a high bay warehouse extension and offices, goods in/out area and associated dock levelers, external hard standings and landscaping. The works were undertaken in an existing and fully facility, located on a busy industrial estate.

Currently on site:

LGI Substation – Value: £1.5m

The project comprises of the construction of a 33kva new sub-station building. The works will comprise of site clearance, demolition and repair of existing walls, bulk excavation including asbestos clearance in preparation for the construction of the new concrete sub-station. This will be followed by steel erection and zinc cladding. Externally, new drainage is to be installed with a service connection into the main highway.

DPD Parcel Distribution Centre – Value: £5.2m

The project comprises an independent new build site to form a new parcels distribution facility with self-contained site access and facilities.

The nature of the work is general site grading, foundations and superstructure works and all appropriate building finishes. The works will be complete with all external yards, car parking and landscaping provisions, along with all incoming Statutory Utilities.
